**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicants' submission, filed 9/13/04, has been entered.

Amended claims 30 and 64; previously presented claims 44, 61-63, and 65; new claim 66; and cancelled claims 1-29, 31-43, 45-60, filed 9/13/04, are acknowledged.

The interview summary (lines 5-7) in the Remarks section (page 5, filed 9/13/04) is not agreed with by the Examiner. Claim 30 and other claims are considered to have NEW MATTER that is not supported by the specification.

Claims herein under examination are 30, 44, and 61-66.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 30, 44, and 61-66 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter that was not described in the specification in such a way as to reasonably convey to one skilled in the

relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Applicants refer to pages 69 to 71 of the specification for support in amending the claims to cite “a first translocation quotient” (claims 30, 64, and 66), “one or more second translocation quotients” (claims 30 and 64), “one or more third translocation quotients” (claims 30 and 66), “comparing the first translocation quotient to ... ii) on or more third translocation quotients...” (claim 30), and “first translocation quotient is compared to the one or more third translocation quotients” (claim 66). These pages of the specification do not give reference to a first, one or more second, or one or more third translocation quotients. Written support is provided for the general act of forming a translocation quotient and comparing values from control and experimental wells (page 69, lines 15-18 and page 70, lines 19-21); however, these passages do not specify the particular quotients in the amended phrases listed above or of a comparison between the a control to a control as the comparison of a first and third translocation quotient in the amended phrases above seem to suggest. Because the introduction of “a first translocation quotient” (claims 30, 64, and 66), “one or more second translocation quotients” (claims 30 and 64), “one or more third translocation quotients” (claims 30 and 66), “comparing the first translocation quotient to ... ii) on or more third translocation quotients...” (claim 30), and “first translocation quotient is compared to the one or more third translocation quotients” (claim 66), filed 9/13/04, lack written support, phrases including these terms as described above are considered NEW MATTER. Claims 44, 61-63 and 65 are also rejected due to their dependency from claim 30.
